Discuss cases of structural heart treatment among **young, but experienced, interventionalists from different Italian centers.**

Complex successful, unsuccessful and complicated cases will be discussed.

The participants interactively discuss treatment strategies of **TAVI, mitral and tricuspid valve interventions and LAA closures.**

Through the presented case the participants will increase their personal knowledge of above procedures and share experiences **how to perform interventions successfully, how to avoid failure, and how to face and avoid complications.**

Furthermore, participants are asked to propose **scientific projects** which will be discussed by the group and eventually initiated.
